

OBJECTIVE

- Computer Engineering graduate with a strong foundation in software development, data structures, and databases. Passionate about building scalable technology solutions and delivering high-quality software. Seeking an opportunity to apply analytical, programming skills in real world applications

EDUCATION

- | | |
|---|------------------------------|
| <ul style="list-style-type: none">Rizvi College of Engineering, Mumbai University
B.E. in Computer Engineering
CGPA: 8.78/10
<i>Honours in Cybersecurity</i> | Mumbai, India
2021 – 2025 |
|---|------------------------------|

TECHNICAL SKILLS

- Languages:** C++, Python, Java, JavaScript, SQL
- Web Technologies:** React.js, Node.js, Express.js, HTML, CSS, REST APIs
- Databases:** MySQL, MongoDB
- Authentication:** JSON Web Tokens (JWT), OAuth 2.0
- Tools & Platforms:** Git, Jira, Postman, VS Code, ChatGPT, GitHub Copilot, Cursor
- Software Development:** Agile Methodologies, Code Reviews, SDLC
- DevOps & Cloud:** Familiarity with AWS (EC2, S3), Basic knowledge of CI/CD pipelines, GitHub Actions
- Concepts:** Algorithms and Data Structures (DSA), Object-Oriented Programming (OOP)

EXPERIENCE

- Software Developer – PCG Designer**
Mumbai, India

August 2025

 - Collaborated with cross-functional teams to design scalable, user-centric solutions and implement RESTful APIs.
 - Optimized database queries and server logic to improve application performance and response time by 25%.
 - Integrated authentication using JWT and enhanced security with role-based access controls.
 - Worked in Agile sprints, participated in daily stand-ups, and contributed to version control via Git and GitHub.

Web Developer Intern – CodeClause

- | | |
|--------|---------------------|
| Remote | Feb 2024 – Mar 2024 |
|--------|---------------------|
- Enhanced app performance by 15% using efficient REST API integration
 - Worked with team on building reusable components using React
 - Created and executed test cases for REST API validation and documented results using Postman

PROJECTS

- Rent Management System**
Node.js, Express.js, React, MySQL, Tailwind CSS

2025

 - Developed a full-stack web platform for real estate agents to manage 200+ properties, rent payments, and agreements.
 - Implemented multi-step property onboarding with auto-fill logic, duplicate prevention, and validation rules.
 - Built automated WhatsApp and email notifications for rent reminders and agreement expiries.
 - Designed optimized REST APIs and database schema for seamless property, owner, and tenant management.
- Food Ordering App (MERN)**
React, Node.js, MongoDB, Stripe API

2024

 - Developed a food ordering platform with integrated Stripe payment and real-time order tracking, leveraging AI assistance for coding and debugging

CERTIFICATIONS

- Introduction to Python – Udemy, 2023
- Introduction to Cybersecurity Tools & Cyber Attacks – IBM, 2023

ACHIEVEMENTS

- Winner (Captain) – Cricket Tournament, 2024
- Solved 250+ questions on LeetCode and GFG
