

PROFESSIONAL SUMMARY

- Computer Engineering graduate (2025) specializing in full-stack software development and cloud integration. Skilled in C++, Python, JavaScript (Node.js, React.js), and SQL databases. Experienced in building scalable RESTful APIs, optimizing performance (up to 25% faster), and deploying applications on AWS using Agile methodologies. Passionate about solving real-world problems through clean, efficient, and secure code.

TECHNICAL SKILLS

- Programming Languages:** C++, Python, Java, JavaScript (ES6+), SQL
- Frameworks & Libraries:** React.js, Node.js, Express.js, Tailwind CSS
- Web Technologies:** HTML5, CSS3, RESTful APIs, Responsive Design
- Databases:** MySQL, MongoDB
- Cloud & DevOps:** AWS (EC2, S3), GitHub Actions, CI/CD Pipelines, Git, Docker (basic)
- Tools & Platforms:** Jira, Postman, VS Code, GitHub Copilot, Cursor, ChatGPT
- Concepts:** Data Structures & Algorithms (DSA), OOP, SDLC, Agile/Scrum, Authentication (JWT, OAuth 2.0)

EXPERIENCE

- Software Developer – PCG Designer**
Mumbai, India Aug 2025 – Present
 - Developed and deployed scalable RESTful APIs using Node.js and Express.js, improving response time by 25%.
 - Optimized MySQL queries and implemented caching strategies to enhance server performance.
 - Integrated JWT-based authentication with role-based access control for improved application security.
 - Collaborated in Agile sprints, performed code reviews, and managed source control with Git/GitHub.
- Web Developer Intern – CodeClause**
Remote Feb 2024 – Mar 2024
 - Enhanced front-end performance by 15% through optimized API integration and efficient component reusability in React.
 - Collaborated with backend teams to test and validate REST APIs using Postman, documenting key endpoints.
 - Assisted in designing a responsive UI and improving code maintainability through modularization.

SELECTED PROJECTS

- Rent Management System**
Node.js, Express.js, React.js, MySQL, Tailwind CSS, AWS 2025
 - Developed a full-stack platform for property agents to manage 200+ listings, rent payments, and agreements.
 - Designed optimized RESTful APIs and relational schema to handle tenants, owners, and properties efficiently.
 - Built automated WhatsApp and email notifications for rent reminders and contract expiries.
 - Implemented multi-step onboarding with real-time validation and duplicate prevention in React.js.
- Food Ordering App (MERN)**
React.js, Node.js, Express.js, MongoDB, Stripe API, Socket.io 2024
 - Engineered a real-time food ordering system integrating Stripe for secure payments and Socket.io for live order tracking.
 - Built reusable React components and modular backend APIs, improving development speed by 30%.

EDUCATION

- Rizvi College of Engineering, Mumbai University** Mumbai, India
B.E. in Computer Engineering 2021 – 2025
CGPA: 8.78/10
Honours in Cybersecurity

CERTIFICATIONS

- Introduction to Python – Udemyl (2023)
- Introduction to Cybersecurity Tools & Cyber Attacks – IBM (2023)

ACHIEVEMENTS & LEADERSHIP

- Winner (Captain) – Inter-College Cricket Tournament, 2024 (Leadership and Teamwork)
- Solved 250+ DSA questions on LeetCode and GeeksforGeeks (50+ Medium/Hard).
